

Product description

Mobile PD is a portable and personal programming device which is an optimal choice for a keyholder when PROTEC² CLIQ™ key needs to be updated in various locations. Mobile PD acts the same way as the Wall PD regarding key update, but gets power from AAA-batteries and connection to Internet via a mobile phone (Bluetooth) or laptop (USB).

Overview of Advantages

- Remote update of audit trails, access rights, schedules and key revalidation.
- Portable
