DO YOU KNOW WHO IS HOLDING YOUR COMPANY’S KEYS RIGHT NOW?

ABLOY TRAKA21 KNOWS
ABLOY Traka21 is an electric stand-alone key management system which improves the security, reliability and profitability of your business. It ensures that the right keys are available to the right people at the right times. On the screen you see current information about all keys. If a key is not in the cabinet you can check who has it, or if it is in place you will see who was the last user.

EASY KEY MANAGEMENT
ABLOY Traka21 combines advanced management of 21 keys or keysets in an affordable plug and play unit. It consists of an intelligent key cabinet and iFobs that lock individual keys or keysets in place until released by an authorised user.

Simple reports can be reviewed on the screen, or the data exported via a USB pen drive in Excel compatible format.

OPERATION
• Stand-alone plug & play solution with advanced RFID technology
• Touchscreen interface
• PIN access to designated keys or keysets which are individually locked in place
• Keys are securely attached using special security seals
• Simple to configure through setup wizard
• No requirement for network connection or PC
• Concealed robust fixing points allow secure wall fixing
• Mains operated with optional battery backup

FEATURES
• User, key and access rights administration
• Multilingual functionality
• Screen based audit trail and reporting capability or export via USB port
• 21 robust, long-life iFobs with security seals
• 21 locking receptors with LEDs
• Robust and compact steel housing eliminates exposed hinges and obvious access points
• Manual override and door release functions in case of emergency
• Audible alarms
• Hold up to 250,000 audit trails

Plug & play key management system
Simple, efficient and cost-effective
Elegantly simple design that fits anywhere
Improves the security, reliability and profitability of business

EASY TO USE
Keys are securely attached to an iFob with a robust security seal and locked in place until released by an authorised user.

User is required to enter his/her unique PIN code to gain access to the cabinet.

All keys and keysets are individually locked. Green LEDs indicate those keys to which this user has access. The user cannot remove keys highlighted by the Red LEDs which remain locked in place.

To return the key, the user enters his/her PIN to access the cabinet again. Amber light indicates return position.
