Desmo**

Corporate Statement

Abloy Oy is one of the leading manufacturers of locks, locking systems and architectural hardware and the world's leading developer of products in the field of electromechanical locking technology.

ABLOY® is an ASSA ABLOY Group brand. ASSA ABLOY is the world leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

Company Profile

Abloy Security has been satisfying security needs for customers in Transportation, Public Utilities, U.S. Government, Casino Gaming, Vending, Parking Meters, OEM, Locker and Payphone markets.

Abloy Security provides a full range of locking product solutions designed to satisfy customers' most demanding applications.

High Security Cabinet Locks

Protecting your physical assets has grown both increasingly more important and challenging over the last few years. The new breed of security threat is more immediate than ever before, increasing your risk of a serious security breach and exposing your assets, employees and customers to dangerous liabilities.

ABLOY® and **ASSA® *Desmo*** Cabinet Locks are designed for demanding High Security applications and provide superior protection for your assets as well as the essential element of key control.

Flexibility in Locking Solutions

▶ Applications:

- Office furniture
- Cabinets
- Storage chests
- Sliding doors
- Display cases
- Other fittings

Design**

ABLOY® Cabinet Locks

- ▶ **ABLOY® EXEC Key Profile** (Slide to follow)
- ▶ **Unique Construction & Modular Design**
 - Ease of use with disc control system & symmetrical key
 - Same product can be surface mounted and mortised
 - Key removable in locked or unlocked position
 - (Can be changed by adjusting the hexagonal screw located on the back of the lock body)
- ▶ **Master Keying capabilities**
 - Over 360 million different key combinations
 - All **ABLOY®** cylinders can operate with single key
- ▶ **Durability and Resistance**
 - No springs or pins
 - Only correct key can align gates on discs and permit locking bar to disengage the cylinder from the housing
 - Highly resistant to wear, dirt, moisture and corrosion

ABLOY® Cam Locks

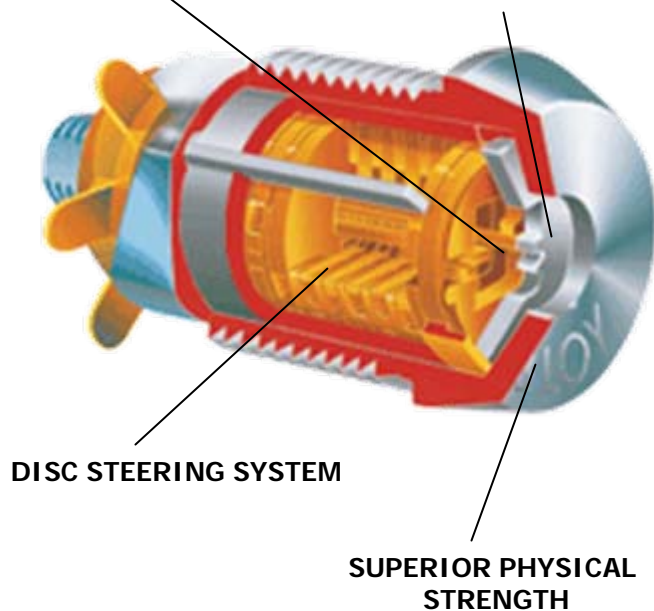

- **ABLOY® EXEC Key Profile**
- **Unique Construction**
- **Master Keying capabilities**

SMOOTH & RELIABLE
OPERATION

PICK
RESISTANCE

- ▶ No springs to wear, weaken, rust or freeze
- ▶ Millions of key combinations
- ▶ Variety of patented key security levels
- ▶ Virtually pickproof
- ▶ Exclusive key design
- ▶ Re-keyable when keys are lost or stolen

ASSA[®] *Desmo* Cam Locks

- Security by Design
- Key Control
- Physical Security
- Ease of Function

ASSA[®] Desmo Cam Locks

▶ Security by Design

- Precision Drive™ Pin System
- Double Locking Bar system
- Efficient and durable locking function

▶ Key Control

- Patent protected key design
- Keys can only be duplicated by authorized factory locations
- Keys constructed of solid nickel silver for lasting durability
- Key design eliminates breakage due to heavy use

▶ Physical Security

- Resists picking, torque and other forms of surreptitious entry
- Designed with mechanical locking pins, double sided locking bars and false cuts
- No springs; maximizing pick resistance and physical security

▶ Ease of Function

- Lock face and tip of key are shaped to guide key entry
- Accurate, secure and long lasting performance
