# Primo Software

Intelligent access control, simplified

Seamless integration and advanced protection
for your security needs
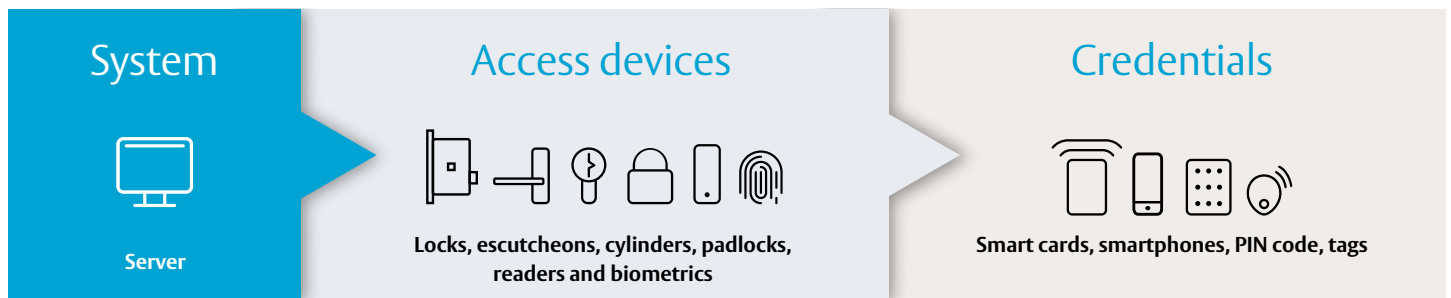

Empower your business

In a fast-paced world, securing your business is more crucial than ever.

Primo, our intelligent access control software solution which seamlessly integrates with a wide range of hardware, is designed for security managers and organizations of all sizes.

Primo is intuitive, customizable, and scalable, providing a sophisticated yet easy-to-use system that grows with your needs.

Designed with security in mind, it offers advanced protection for maximum control and peace of mind.

System	Access devices	Credentials
Server	Locks, escutcheons, cylinders, padlocks, readers and biometrics	Smart cards, smartphones, PIN code, tags

Discover the Primo advantage

Primo is a state-of-the-art access control solution tailored to meet the unique needs of your enterprise. Experience the perfect blend of usability, customization, scalability, and advanced protection to ensure your business remains secure and adaptable.

Intuitive usability
User-friendly wizards guide you through every step, making configuration and onboarding easy and convenient.

Customizable set-up
Tailor your experience by customizing views and creating unique credential-holder types to adapt the system to your specific needs.

Scalable system
Easily manage up to 10,000 doors and 1 million credential holders within a single facility, or scale to 250 facilities, all through a centralized database.

Advanced protection
Advanced security protocols ensure that your access control system is resilient and reliable.

Experience enhanced security

Elevate your business security to new heights with Primo, the cutting-edge access control solution designed for unparalleled protection and flexibility. With a focus on advanced technologies and seamless integration, Primo ensures your security infrastructure is robust and adaptable to your unique needs. Discover the features that make Primo the ideal choice for comprehensive, reliable security management.

If you already run an ASSA ABLOY Incedo™ access control system, Primo is fully compatible and makes an easy and cost-effective upgrade.

Intelligent and scalable solution for access management

Mobile access and biometrics
Supports mobile access and biometric authentication, including fingerprint and facial recognition for enhanced security.

Local site validation
Full redundancy allows for uninterrupted access control even when your central software is off-line, ensuring continuous security.

Advanced and user-friendly technology for a secure business environment

Flexible hardware integration
Expands to accommodate user-number growth or integration with additional third-party solutions for future-proof investment.

Multi-site management
Easily manage and control access across multiple sites or branches from a central point.

Manage security anywhere from the web-based interface

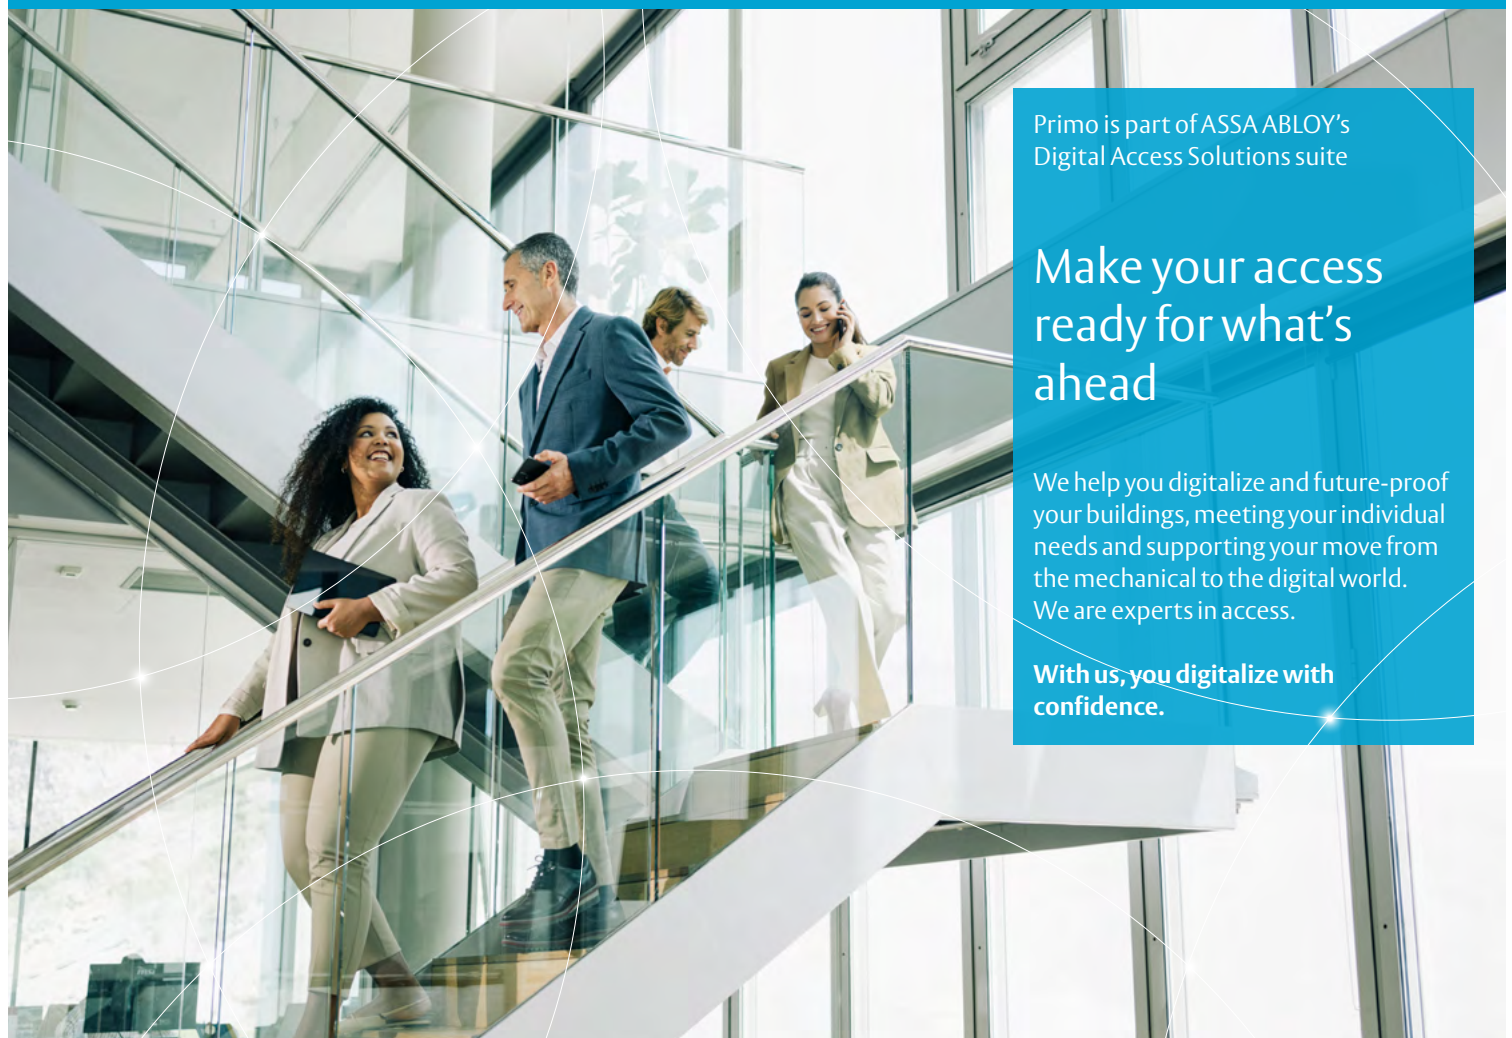

Comprehensive reporting
Generate detailed reports with ease. Whether predefined or custom, Primo's reporting tools provide valuable insights.

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.

ASSA ABLOY Opening Solutions leads the development within door openings and products for access solutions in homes, businesses and institutions. Our offering includes doors, door and window hardware, locks, access control and service.
