

# Unlocking Smarter Access Control: Seamless Management with SMARTair® and FLEXIPASS

ASSA ABLOY

Experience a safer  
and more open world

# FLEXIPASS

Founded with a mission to revolutionise access control, FLEXIPASS delivers seamless, app-free Digital Key solutions for businesses of all sizes. Trusted globally across hospitality, commercial real estate, co-living, education, and residential sectors, FLEXIPASS enables secure, contactless entry with instant digital key delivery. Our platform integrates effortlessly with leading lock and access systems, empowering organisations to enhance security, streamline operations, and offer a superior user experience.

## About SMARTair and FLEXIPASS

### SMARTair: Wireless Access Control Redefined

SMARTair is a powerful, flexible, and easy-to-install access control system offering real-time security management without the need for hard wiring.

- **Wireless Technology:** No need for complicated cable installations.
- **Wide Range of Devices:** Electronic escutcheons, cylinders, wall readers, cabinet locks, and more.
- **Real-Time Control:** Update access rights instantly.
- **Mobile Access Enabled:** Open doors via smartphone.

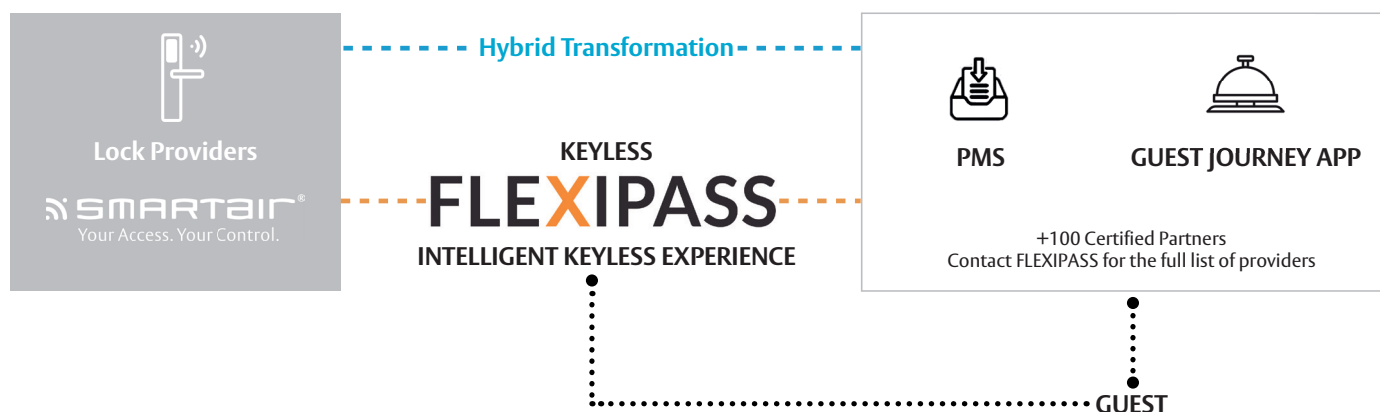

### FLEXIPASS: Webkeys Made Simple

FLEXIPASS transforms any smartphone into a secure room key or access device, perfect for modern businesses and hospitality environments.

- **No App Required:** Direct delivery of webkeys via SMS or email.
- **Instant Access:** Users can access facilities immediately without registration.
- **Secure Delivery:** Encrypted webkeys ensure safe authentication.

## FLEXIPASS Open Business Platform - Seamless Integrations

# Enterprise Benefits

## Enhanced Efficiency:

- Issue, revoke, and modify credentials remotely — no need for physical key handover.
- FLEXIPASS integration reduces front-desk traffic and manual admin.

## Seamless User Experience:

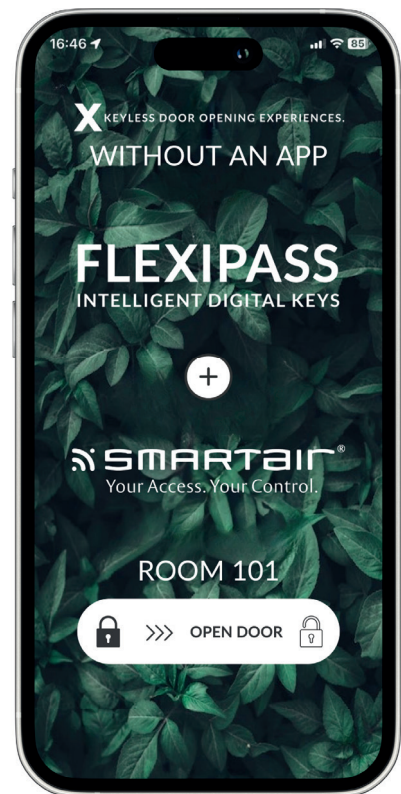

- Instant key delivery to users' smartphones.
- Unlock SMARTair-secured doors easily using mobile credentials.

## Improved Visibility:

- Full audit trails of user activities and door access.
- Centralised control over multi-site facilities.

## Scalable Integration:

- Flexibly expand across multiple locations without the need for heavy infrastructure investments.
- Compatible with a wide range of doors, lockers, gates, and cabinets.

## How SMARTair and FLEXIPASS Work Together

### User Registration

- Users are issued access rights remotely via the SMARTair system and FLEXIPASS platform.

### WebKey Distribution

- Webkeys are delivered securely to smartphones without requiring a dedicated app.

### Access Activation

- Users present their mobile device to a SMARTair reader to unlock doors.

### Real-Time Updates

- Admins can update, modify, or revoke access in real time through a central platform.

## Unlock New Possibilities for Your Facilities

Deliver a seamless, secure, and contactless guest experience with SMARTair and FLEXIPASS. From effortless Digital key delivery to real-time access management, our integrated solution transforms hotel operations — enhancing guest satisfaction, improving security, and streamlining staff workflows. Empower your hotel with smarter, more flexible access control designed for the hospitality industry.

The ASSA ABLOY Group is the global leader  
in access solutions. Every day we help billions  
of people experience a more open world.
