

A woman with long brown hair, wearing a brown coat over a dark top, is smiling and using a key to unlock a door. The door has a silver ABLOY CLIQ reader installed on it. The background shows a modern building with glass windows.

CLIQ® Readers and Updaters

Convenient new options for integration into your
ABLOY eCLIQ or PROTEC² CLIQ system

ABLOY

CLIQ Indoor Reader

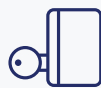

CONTROL THIRD-PARTY DEVICES SECURELY WHILE PRESERVING BUILDING AESTHETICS

CLIQ Readers bring trusted **CLIQ control to a range of third-party devices and applications**. They simplify the secure management of access for a variety of openings and switch operations, and can be fully integrated into the existing CLIQ system.

An inbuilt white LED displays the Reader's status. The **acoustic and visual authorisation signals** are displayed directly on the key.

Available in **different colours and mounting options**, CLIQ Indoor Readers are either surface-mounted or slot into a flush-mounted frame, blending seamlessly with the respective switch design.

KEY BENEFITS OF THE CLIQ INDOOR READER

Convenient

PROTEC² CLIQ or eCLIQ key only needs to be inserted, not turned, minimizing wear-and-tear

Compatible

with CLIQ Web Manager, Local Manager and CLIQ Go*, plus the full user key range

Flexible

customizable switch delay, with optional activation on key insertion or removal

Secure

available with optional remote relay unit for an added layer of security

* Available only for eCLIQ. Regional differences in availability may apply. Please contact your ABLOY representative for more information.

WHERE TO DEPLOY A CLIQ INDOOR READER

- Doors with electric strikes or motorized locks
- Automatic revolving doors or sliding glass doors
- Switches for light control, lift priority and more

Surface-mounted Indoor Reader
(box must be ordered separately)

Flush-mounted Indoor Reader
integrated into light switch

Flush-mounted Indoor Reader
(frame must be ordered separately)

CLIQ Outdoor Reader

WEATHERPROOF, CUSTOMIZABLE CONTROL FOR A RANGE OF APPLICATIONS

With added **protection against weather, dust and vandalism**, the CLIQ Outdoor Reader puts all the functionality of the CLIQ Indoor Reader into a robust, high-quality stainless-steel housing suited to challenging outdoor applications.

It is ideal for installation at barriers, gates, and other building or site entrances. The Outdoor Reader is available **flush-mounted, surface-mounted or as an e-module** without metal housing for discreet integration into door intercoms, pedestals or panels.

A separate relay unit adds a valuable **extra layer of security**.

ADDITIONAL BENEFITS OF THE CLIQ OUTDOOR READER

Durable
stainless steel housing with
weatherproof IP65 and vandal-
proof IK09 protection

Versatile
diverse installation
options ensure a wide
range of applications

WHERE TO DEPLOY A CLIQ OUTDOOR READER

- Doors with electric strikes or motorized locks
- Automatic revolving doors or sliding glass doors
- Barriers, gates, and other entrances

Flush-mounted Outdoor Reader saves space and blends in perfectly with the building wall

Outdoor Reader e-module allows for aesthetic integration into door intercom systems, such as Doorbird

Surface-mounted Outdoor Reader can be retrofitted anywhere where no flush-mounted sockets have been pre-installed

CLIQ Updater

SECURE TRANSMISSION, ELEGANT INTEGRATION

The CLIQ Updater adds a **CLIQ key update point** outdoors. Because connecting the Updater does not require a network cable, the device is fast to install and ideally suited to retrofit projects.

The CLIQ Updater is simply connected to an existing CLIQ Wall PD (Gen 2), at a distance of up to 200 metres, with fewer cables and no need for network configuration. All **security-related elements remain on the inside** of your building, making this both more secure and more cost-efficient.

The CLIQ Updater is available for **flush or surface mounting**. It can also be **integrated into door intercom systems**, steles and tableaux, ensuring your building aesthetics are maintained.

KEY BENEFITS OF THE CLIQ UPDATER

Secure
no need to run a network cable outdoors

Convenient
simply connect to an existing CLIQ Wall PD via RS485 cable

Durable
stainless steel housing with weatherproof IP65 and vandalproof IK09 protection

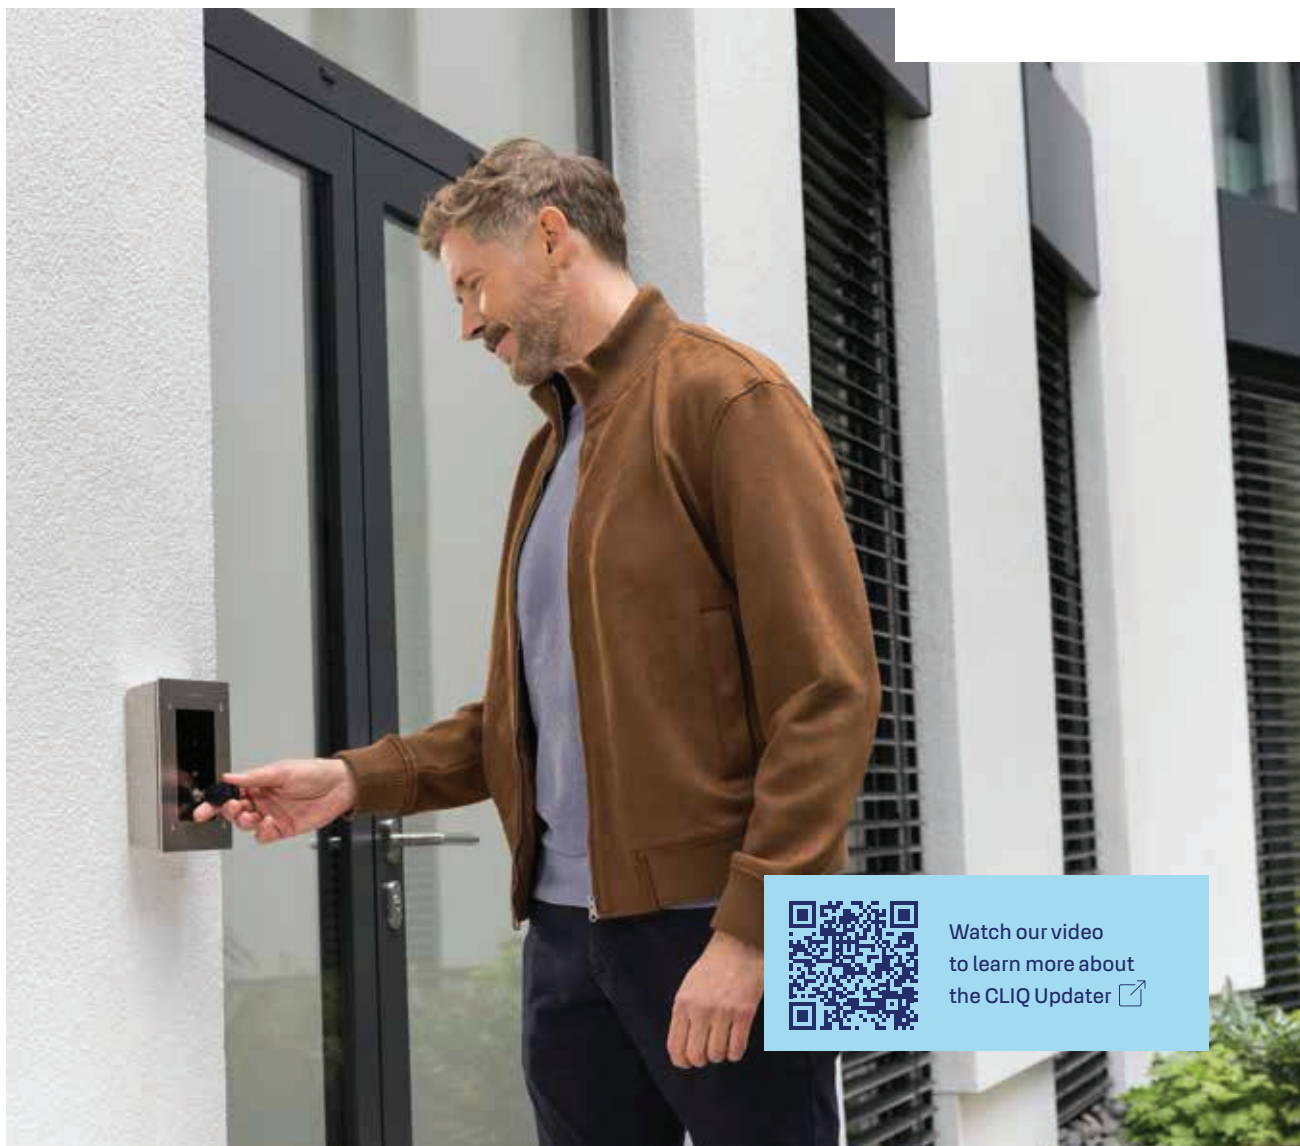

Intuitive
status LEDs are identical to CLIQ Wall PDs, reducing the need for extra training

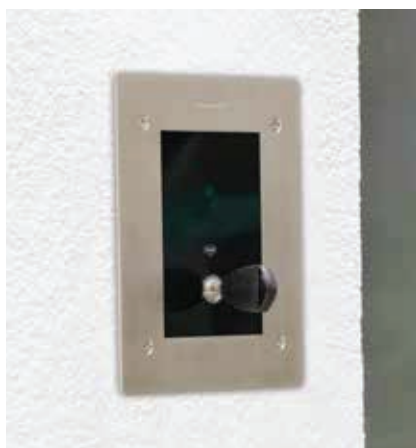

Compatible
with all PROTEC² CLIQ and eCLIQ user keys, plus CLIQ Web Manager and Local Manager software

Versatile
diverse installation options ensure a wide range of applications
