

Escape Door System (EDS)

Enhanced Security. Safe Escape. Perfect for Retail.

As retail theft continues to grow, businesses need stronger, smarter ways to discourage theft before it happens. Our EDS units deliver just that while staying compliant and maintaining high levels of security.

Security

- Ideal for unsupervised or sensitive areas.
- Alarm sounds at door when the button is pressed to deter unauthorised use.

Safety

- Triggered by an emergency button or the buildings fire alarm.
- In the event of power failure or system fault, the lock will release instantly.
- When the button is pressed, it triggers an alarm.

Delayed Escape

- 1–15 second delay to help deter theft.
- Increased delay optional when combined with 24hr CCTV.

Compliance

- Fully compliant with EN 13637 and UK building regulations.
- Fire-alarm integration ensures automatic and safe evacuation.

- There were over **20 million** incidents of theft last year - **55,000** incidents per day - which compares to **16 million** the previous year - an increase of **25%**.
- The financial impact of retail crime must also not be ignored. The total cost of retail crime, including crime prevention, now sits at **£4.2 billion**, of which **£2.2 billion** is a direct result of theft.
