FOR TRUST IN CONSTRUCTION

# **Complete Situational Awareness for the Construction Industry**

**ABLOY**

# For Trust In Construction

In the construction industry  
you're building for the future.

The future of security for the construction industry is a seamless blend of digital, mechanical, and electromechanical advancements to drive complete situational awareness.

Our high-security solutions are designed to secure residential, commercial, and mixed-use developments. With a range of customized or ready-made locking and access control solutions for each area of a building, from the front door to cabinet locks to control rooms.

Securing new construction from top to the bottom floors.

# Securing Construction

Abloy solutions go beyond security to add operational efficiency, keeping security and safety top of mind. Our construction clients in Canada and globally value our expertise and the way we work. To name a few: REDI Shopping Center, Oxford Properties, and Royal Center.

At ABLOY we offer:

-  Future-proof, access control solutions, designed specifically for the construction industry to provide complete situational awareness from top to bottom floors.
-  Customizable, durable, and reliable locking and access control solutions—that are virtually maintenance free. They're designed to solve complex high-security challenges. Securing every lock and key, no matter the size.
-  Innovative solutions that allow you to integrate existing access management software and systems into a single platform for evolving access control. ABLOY CUMULUS and PROTEC<sup>2</sup> CLIQ provide you with wireless and keyless solutions. Helping you meet the demands and regulations of the construction industry with future-proof, integrated solutions.
-  Fully connected solutions with smart locks and access control management software through a single platform via Integration Partners such as: CLIQ Connect App SDK, Lenel S2 OnGuard (coming soon), and Genetec Security Center.
-  Access to an international team of locking and access control experts that you can leverage at each stage of your construction project, from planning to final construction.

# Abloy's Construction Solution Portfolio

Our construction industry products and solutions are designed to meet security and safety requirements.

## ABLOY® CUMULUS

ABLOY CUMULUS is the key to keyless access that combines quality locking hardware with secure access and management of applications. The product range covers keyless access solutions from mobile keys to padlocks to controllers. It's designed to interface also with third-party applications and software management tools. CUMULUS locking devices can be placed and used anywhere within or outside network coverage, and it's best suited for single or multi-location buildings.

## ABLOY® CAM LOCKS

ABLOY Cam Locks are suitable for a wide range of applications including electricity cabinets, switch cabinets, distribution cabinets and other fittings. Our Integration Partners help us offer smart locking solutions for the smallest locks. Providing you with fully connected, wireless security solutions.

## PROTEC² CLIQ™

PROTEC² CLIQ single key technology is a game changer for operational efficiency in the construction industry. Reduce the risk of lost keys and gain the ability to operate from remote or unmanned locations.

PROTEC² CLIQ is Abloy's comprehensive and flexible key and access management system. It's a wireless solution with easy installation, electromechanical keys and an audit trail. It's scalable for future needs and can be integrated with other systems.

## ABLOY® ELECTRIC LOCKS

Designed for a seamless, aesthetic and smooth performance the ABLOY Electric Locks are suitable for high security environments and easily integrated into your existing access control system by integrating future-proof security technology.

# How To Buy

Abloy Canada products are sold through 250+ authorized distributors and dealers, from coast to coast of Canada. We're committed to serving the construction industry. Together, we are creating trusted and secure environments that keep Canada moving forward.

If you're looking to specify locking and access control solutions for your next construction project, you can locate your nearest representative by visiting this page: [abloy.ca/distribution](https://abloy.ca/distribution).
