

FOR TRUST IN HEALTHCARE

Innovative Solutions for Medicine Management

ABLOY

THE MOST COMMON PHRASE ON ANY HOSPITAL WARD...

"WHO'S GOT THE DRUG KEYS?"

Nurses have many responsibilities and not enough time!

Nurses can visit drugs cupboards up to 50 times per shift. One study found that this could waste up to 40 minutes per shift looking for keys — and substantially longer if the keys have been taken from the ward. This is time lost from Patient Care.

PRE-CLIQ

Nurses – Not enough time to complete all their tasks, including providing patients drugs:

- Stressed
- Poor Service
- Low Morale
- Complaining

Patients – waiting for overdue Drugs to be administered:

- In pain
- Distressed
- Frustrated / Angry
- Complaining

The impact on a hospital and its reputation:

- Poor Drug security
- Wasted cost, inefficient performance
- Patient's complaints of poor service
- Poor Hospital and Management Reputation

Time is money

Although Healthcare is undoubtedly a business, the value of time isn't that simple and managing time has more impact than purely a monetary return.

Efficient management of Nursing time has efficiency, reputation and financial benefits.

MEDICINE MANAGEMENT - DRUG STOCK CONTROL, SECURITY, ACCOUNTABILITY... AND MORE TIME TO CARE

A collage of various medical cabinets and a large electronic key. The cabinets include a mobile cart, a wall-mounted unit, a small open cabinet, a mobile unit on wheels, a tall blue cabinet, and several smaller white cabinets. A large, black, shield-shaped electronic key with a green light is prominently displayed in the foreground.

**One key can open all these Cabinets
PROTEC² CLIQ**

The Award winning, PROTEC² CLIQ by Abloy is an electronic key system that can be applied to static and mobile drugs containers – flexible secure enabling continuously changing access rights. Key revalidation can be disabled if lost or stolen, reducing risk while also allowing each nurse to carry their own key.

POST-CLIQ

Nurses – administer patient's drugs on time:

- Satisfied
- Good Service
- Good Morale
- Motivated

Patients – receive drugs on time:

- Pain Managed
- Relaxed
- Satisfied
- Speak well of the staff and hospital to family and friends

The impact on a Hospital and its reputation:

- Effective Medicine Management, Stock Control, Money Saved
- Patients compliment good service
- Admired Hospital and Management Reputation

If you could find....

A cost-effective solution that improves Medicine Management including drug security and stock control, that also eliminates a high proportion of Nurses wasted time and delivers an attractive Return on Investment, why wouldn't you want it?

EFFICIENCY

Medicine Management

Take control of drugs stock, audit trails of personal access

Improve Audit Performance

It enhances supervising and managing the use of controlled drugs

More Time to Care

Each Nurse can save up to 40 minutes per shift in wasted time, looking for keys as one key opens many locks

Zero Staff Resistance

Experience shows that following trials and experiencing the significant benefits, mean nurses welcome the CLIQ system

Improve Patient Care

Patients get their drugs on time, giving more time for each nurse to provide patient care

Easy Retrofit

No disruption to staff, patients or the running of the ward during installation

Improve Staff Morale

One ward sister reported that the CLIQ system "changed their lives", not having to look for keys, a better way of working

SECURITY

Reducing risk of lost keys

Key revalidation can be disabled if it's lost or stolen

Increased stock control of drugs

Only the registered keys can access restricted areas at any given time, and electronic openings are audited

Speeds up Investigations

In the event that drugs go missing, the audit history helps you identify 'who, where and when'

Reduced Theft

Reduce the risk of theft of controlled drugs and patient property

INNOVATION

Integrated and Encrypted System
The CLIQ system can integrate with other systems to help manage controlled drugs stock monitoring, etc.

Digital and Mechanical Technology
Gives you the benefits of proven physical security and digital access management to controlled drugs

Future-Proofed Technology
The system can be expanded as required and software upgrades are included in the agreement

Flexibility and Convenience
The CLIQ system can be installed in Drugs Cabinets, Drugs Trolleys, Patient Lockers and POD Lockers.

FINANCE

Return on Investment

An estimate from one Chief Pharmacist and Clinical Lead for Medicines Management estimates that the money saved in released nursing time equates to an ROI of 600% in a year

Leasing Option

To avoid difficulties associated with the obtaining capital investment, leasing options are available to help you build a longer term Business justification

Affordable

Installations can be scheduled on a ward by ward basis over a period of time to provide an affordable solution

SECURED BY
ABLOY
