

## **ABLOY® HIGH SECURITY RIM LOCKS**

**ABLOY RIM LOCKS** employ the unique **ABLOY®** detainer disc cylinder technology that provides superior master-keying possibilities and enable keying of different product types in single master-key-system.

# **ABLOY**

## ABLOY® RIM LOCK CASES

The functions of the new lock cases are the same as in earlier versions. Bolt deadlocks automatically when door is closed. Bolt throw 20mm. Bolt can be latched by depressing it into the lock case. Bolt is released by depressing it further and turning thumbturn simultaneously. The new lock cases are available only with brushed black nickel finish. Thumbturn only in bright chrome.

### LOCK CASE ABLOY® RI211

General rim lock case which is used on house doors and apartment doors, storeroom doors etc.

Also available

### LOCK CASE ABLOY® RI212

Abloy maintains Product Security Center at [www.abloy.com/securitycenter](http://www.abloy.com/securitycenter). We recommend that You check the Center on a regular basis in order to be fully informed of product security updates, so that your knowledge of our products remains optimal.

It is the customer's responsibility to define the required level of security, whilst taking into consideration relevant factors for its operations. To achieve the overall level of security required in the customer's operations multiple layers of security must be in place. These include for example locking system, key management system, access management, CCTV and alarm system as well as physical security in a manner and level specified by the customer.
