

CLIQ® Connect+

Save time and work smarter with a simple extension to the CLIQ Connect App – now available for all CLIQ key types

ABLOY

Efficient access management for a mobile world

All PROTEC² CLIQ keyholders can now benefit from the CLIQ Connect App.

With the new CLIQ Connect+ extension in CLIQ Web Manager, mobile working becomes available to everyone. Keyholders can check their permissions anywhere, at any time – boosting their efficiency and saving time on administration.

The workflow is simple. The System Administrator enables the Connect+ feature in CLIQ Web Manager. Keyholders view their key access rights and validity periods in the CLIQ Connect App.

Your advantages

Less time spent on support for the System Administrator
No need to confirm user key access rights or validity periods

More awareness for every user
Visibility on cylinder access, key schedules and remaining validity period

System overview

Software to manage access rights for different users, doors and time periods

Range of programming devices to remotely transfer and update key access rights

Range of programmable, battery-powered keys

Wide range of programmable cylinders and padlocks to secure different access points

Abloy maintains Product Security Center at www.abloy.com/securitycenter. We recommend that You check the Center on a regular basis in order to be fully informed of product security updates, so that your knowledge of our products remains optimal.

It is the customer's responsibility to define the required level of security, whilst taking into consideration relevant factors for its operations. To achieve the overall level of security required in the customer's operations multiple layers of security must be in place. These include for example locking system, key management system, access management, CCTTV and alarm system as well as physical security in a manner and level specified by the customer.
